(919) 244-1425

[linkedin.com/in/albertpark1](https://www.linkedin.com/in/albertpark1)

## SKILLS

Strong: Javascript/ES6, React, Redux, Vue, TypeScript, Ionic, Gatsby, Next, GraphQL, REST APIs, unit testing (Jest/Enzyme), MySQL, Node, HTML/CSS, SASS/LESS, Styled Components, Familiar: Amazon Web Services, NoSQL, Java, Python, PHP, server management

## EXPERIENCE

**Engineer III** - *Ticketmaster / Hollywood, CA*

February 2019 - PRESENT

- Built and deployed a component architecture compatibility layer to import and incorporate React components and Redux functionality into an Angular application
- Designed and deployed feature flagging capabilities on all production and development environments, using React, Typescript, and custom environment configurations
- Updated an enterprise client platform design component library, using React, Styled Components, Jest, and NPM
- Implemented and deployed unit and integration testing frameworks, architecture and pipelines, using Jest, Enzyme, and Gitlab CI/CD

**Senior Front End Engineer** - *Deutsch / Los Angeles, CA*

December 2016 - December 2018

- Built and deployed an iOS app for auto shows using Ionic, Angular, and Typescript.
- Architected and built the North American marketing and job search site for LetGo using Vue, Flexbox, Craft CMS, and integrating with Greenhouse ATS ([we.letgo.com](https://www.letgo.com)).
- Designed and built an environment tracking dashboard using a custom site starter utilizing Gatsby, React, CSS Modules, SASS, and a GraphQL backend.
- Managed all environment maintenance and procedures for code and content releases to production using Jenkins, Solr, Adobe Experience Manager, and AWS.

**Creative Developer** - *Deutsch / Los Angeles, CA*

May 2015 - December 2016

- Built a responsive, single-page application for vehicle customization and inventory search for Volkswagen's North American website ([vw.com/builder](https://www.vw.com/builder)).
- Built and deployed a marketing site for new Volkswagen automotive technology features using Backbone, Grunt, and AWS ([vwcarnetconnect.com](https://www.vwcarnetconnect.com)).

**Teaching Assistant** - *University of California, Los Angeles*

May 2018 - November 2018

- Lectured on full-stack development with MySQL, Express, React, and Node
- Designed and proctored review sessions on jQuery, Bootstrap, CSS, and Sequelize.
- Mentored junior web developers on architecting web application projects, working in cross-functional teams, building resumes, networking, and developing interviewing skills.

## EDUCATION

**Master of Business Administration**

December 2011

*Moore School of Business, University of South Carolina, Columbia*

**Bachelor of Arts**

May 2006

*University of North Carolina, Chapel Hill*
