EXPERIENCE

Senior Front End Engineer - *Deutsch / Los Angeles, CA*   December 2016 - PRESENT

- Supervised and tested front-end compatibility for a sitewide architecture upgrade to AWS, applying to production, staging, and development environments (vw.com).
- Built and deployed an iOS app for auto shows using Ionic, Angular, and Typescript.
- Architected and built the North American marketing and job search site for LetGo using Vue, Flexbox, Craft CMS, and integrating with Greenhouse ATS (we.letgo.com).
- Architected and built a new front-end for Deutsch's internal human resources resume management tool using Gatsby and React.
- Designed and built an environment tracking dashboard using a custom site starter utilizing Gatsby, React, CSS Modules, SASS, and a GraphQL backend.
- Managed all environment maintenance and procedures for code and content releases to production using Jenkins, Solr, Adobe Experience Manager, and AWS.

Creative Developer - *Deutsch / Los Angeles, CA*   May 2015 - December 2016

- Built a responsive, single-page application for vehicle customization and inventory search for Volkswagen's North American website (vw.com/builder).
- Implemented a redesign of Volkswagen's model page template with Backbone, Java, and Adobe Experience Manager.
- Built and deployed a marketing site for new Volkswagen automotive technology features using Backbone, Grunt, and AWS (vwcarnetconnect.com).

Teaching Assistant - *University of California, Los Angeles*   May 2018 - PRESENT

- Lead lectures on full-stack development with MySQL, Express, Node, and Handlebars.
- Designed and lead review sessions on jQuery, Bootstrap, CSS, and Sequelize.

Software Development Consultant - *Independent / NC, CA*   January 2012 - PRESENT

- Designed, architected, and deployed marketing websites for various small businesses.
- Provided architecture, design, and business execution consulting services to technology startups and lifestyle product businesses.
